Her district participates in the following programs: breakfast, lunch, fresh fruit and vegetable, after-school snack, supper and summer feeding. She will be discussing ways to increase revenue through improving operational efficiencies by offering more federal programs. She will also be discussing how to get your schools to want to do breakfast after the bell and share best practices for breakfast. Martin will share trends in breakfast and lunch menus to help increase participation. Need some help starting a supper program or summer feeding program? She has got answers for you.
